

Workshop on 'Inclusive Pedagogies- Connecting Classrooms'

A workshop on 'Inclusive Pedagogies- Connecting Classrooms ' was conducted by Ms Tanu Tiwari, Ms Monika Sharma and Ms Shraiya Gupta for the VDJS staff on 10th March to make the inclusive practices on the campus more effective and productive. After a comprehensive session on the concept of 'inclusiveness' in teaching and learning practices and the importance of inclusive language, the participants applied their insights and learnings- inclusion, unconscious bias, medical and social models - to a selection of case study scenarios in groups. The workshop concluded with an assignment for the faculty to frame a tentative 'Classroom Charter' for promoting 'values of inclusiveness' among children and in society at large for the new academic session, 2022-23.
