

## **Report of Generation Global activities**

Generation Global is an open platform for exchange of views among the school students across cultures and continents, initiated by Mr. Tony Blair, former Prime Minister of U.K.

Generation Global offers free and flexible resources on a range of global issues and high-quality training for educators to support young people's global citizenship development. This year, around 20 students from class-IX to XII have attended regular video conferences and online dialogues, intended for global community to create a safe space for intercultural dialogue between young people around the world, supporting them to become active and open-minded citizens.

What do we do?

We have had certain discussions on some active topic and an open dialogue is held...Generation global is all about dialogue it does not support debating.

There were certain conferences held online where we had a great experience.

These were the topics:

- a) Climate Change
- b) Rights and Inequalities
- c) Health and Well Being
- d) Hate Speech Online etc.

Our students have attended 31 complete video conferences. Taking screenshots are prohibited during the conference, so we don't have any picture or screenshot for now.

Thank you,

Mr. Abhijit Mukhopadhyay.

In-charge.
